

Dear _____,

As a <Community Partner, supporter of education, _____,> I am concerned with how Ranson IB Middle School will likely be affected by the student assignment plan for the upcoming school year. Ranson currently has about 900 students, with over half being from low income families. Despite pledges by CMS to break up concentrations of poverty, Ranson is facing an increase of about 300 low income students.

Having violated its own policy with regard to concentrating poverty, CMS needs to find ways to provide additional resources to Ranson to help handle this influx. Please join Raiders In Support of Equity in working for the success of Ranson and its students.
